Any restatement of RFP text in the Question/Comment column shall NOT be construed as a change in the actual wording of the RFP document.

QUESTION / COMMENT	STATE RESPONSE
<p>1 Is there a specific test list to bid on?</p>	<p>No. The cost proposal lab test fee is based on the Medicare fee schedule but the test would be whatever is ordered by the physician.</p>
<p>2 Are the Evaluation factors listed on the Cost Proposal and Scoring Guide quantities? If so, what is the time period of the quantities (i.e., is this an annual amount)?</p>	<p>The Evaluation Factors listed in the Cost Proposal and Scoring Guide represent our best estimate of the quantities of each service that will be performed over the 60 month term of the proposed contract, based on historical data, for the residents of the TSVHB facility in Murfreesboro with service-connected disabilities of seventy percent (70%) or greater and residents covered by Medicare Part A for their care. The TSVHB facility in Murfreesboro averages 30 residents in these categories. These are the only TSVHB residents for whom the TSVHB is responsible for payment of laboratory services. However, the TSVHB facility has a total of 140 beds and the proposed contract also requires the vendor to provide laboratory services to any other residents of the TSVHB facility in Murfreesboro who require such services and to bill such services to that resident's payor source, including private pay, Medicare Part B, Medicaid, and third party insurance. The TSVHB facility in Murfreesboro has an average occupancy rate of 96.4 percent (96.4%). Notwithstanding the foregoing, the evaluation factors do NOT represent any guarantee of service volume requirements.</p>
